

167th ACNFP Meeting

The 167th meeting of the ACNFP will be held on Wednesday the 12th of June 2024. Further details to follow.

Executive Summary

- GMO RP1962 – The Committee Advice Document for this application was reviewed by the members with a few amendments suggested to be finalised by Chair's action.
- Baru nut – This traditional food from a third country was reviewed by the members where they raised questions on a number of areas that relate to safety on various aspects of the application. A summary will be provided by the Secretariat.
- Corn Protein – Members of the Committee reviewed further information from the applicant. A number of data gaps and questions were raised on composition, potential for microbial risks and nutrition. The Secretariat will explore a way forward with the applicant.
- *Akkermansia muciniphila* – Members had previously reviewed this application and raised points to be explored. The response was considered at the meeting and members advised that further information be sought from the applicant to address the outstanding questions on identity, specification and impact on vulnerable groups. The response will inform revision of the Committee Advice Document to be cleared with the Committee by correspondence.
- Cannabidiol RP11 – Members reviewed the draft Committee Advice Document where they identified areas for the Secretariat to amend, for agreement by Chairs action.
- Cannabidiol RP340 – Members reviewed the draft Committee Advice Document where they identified areas for the Secretariat to amend. They also advised a further review by members on the genotoxicity data. Further information will be sought from the applicant to allow the assessment to be finalised.
- Cannabidiol RP349 – This application was postponed allowing clarification of the analytical and compositional data. This will be presented at a later

meeting.

- Annual Report – The annual report was reviewed by the members with a few amendments suggested. These will be cleared by Chair's action.
